

# **LICENSE — Personal & Commercial Use**

This icon pack includes a personal and commercial use license, allowing you to use the assets in both non-commercial and commercial projects. You may use the icons in games, VTT modules, printed materials, UI/UX, streams, artworks, and other creative works. You may not redistribute, resell, sublicense, or re-package the original files in any form, whether individually or as part of another asset pack. Your purchase grants you the right to use the assets in your projects, but not to claim ownership of the artwork itself.
